- 3° The policy you wish to cancel has not been fully executed;
- 4° You have not declared any losses covered by this policy.

In this case, you can exercise your right to cancel the contract by sending a letter or any other durable medium to the policy insurer. The insurer is obliged to refund the premium paid within thirty days of your cancellation.

In addition, to avoid the duplication of insurance cover, we recommend checking that you are not already insured by a policy covering one of the risks featured in the policy you have taken out.

Sample cancellation letter:

"I, the undersigned, (Surname, First name and Address), hereby cancel my adhesion to COMFORT CANCELLATION cover. Executed on (Date and Place), Signature ".

If you exercise your right to cancel, the Insurer is obliged to reimburse any premium paid within 30 days of the date on which you exercise your right to cancel.

However, the full premium remains payable to the Insurer if you exercise your right to cancel if a claim is made activating the cover provided by the policy during the 30-day period of consideration.

Please note: The right to cancel does not apply to travel or baggage insurance or similar short-term insurance policies with a term of less than one month.

DATA COLLECTION

The Insured acknowledges being informed that the Insurer processes their personal data in accordance with current data protection regulations and that:

- It is mandatory to answer the questions posed, and in the event of any false declaration or omission, the consequences may entail the nullity of the policy taken out (Article L 113-8 of the French Insurance Code) or the reduction of benefits (Article L 113-9 of the Insurance Code),
- The processing of personal data is necessary for enrolment and the execution of the policy and its coverage, for the management of commercial and contractual relations, or for the enforcement of current legal, regulatory or administrative provisions.
- The data collected and processed is kept for the time required to fulfill the contract or for any legal obligations. These data are then archived according to the periods stipulated in the provisions concerning the time limit.
- The recipients of data concerning the Insured are, within the limits of their responsibilities, the Insurer's departments in charge of concluding, managing and executing the insurance Policy and coverage, and its delegates, agents, partners, sub-contractors and reinsurers in respect of performing their duties.

They may also be forwarded, where appropriate, to professional bodies and to any persons involved in the policy, such as lawyers, experts, representatives of the law and judicial officers, trustees, guardians and investigators.

Information concerning the Insured may also be sent to the Policyholder, to any persons empowered as Authorised Third Parties (courts, arbitrators, mediators, relevant ministries, supervisory and control authorities and any public bodies authorised to receive such information, and to inspection services such as statutory auditors, auditors and internal control departments).

- In its capacity as a financial institution, the Insurer is subject to the legal obligations arising principally from the French Monetary and Financial Code with regard to the fight against money laundering and the financing of terrorism. As such, it implements contract monitoring procedures that may lead to a report on suspicious transactions or asset freezing measures.

Data and documents concerning the Insured are kept for a period of five (5) years from the end of the contract or the termination of the relationship.

- Their personal data may also be used in the context of combatting insurance fraud, which may lead to their inclusion on a list of people presenting a risk of fraud.

This inclusion on the list may result in a longer examination of their dossier, or even the reduction or refusal of a proposed right, benefit, contract or service.

In this context, personal data concerning them (or concerning persons party to or interested in the policy) may be processed by any authorised persons working within the Insurer Group's entities as part of the fight against fraud. This data may also be sent to authorised staff of organisations directly involved in a fraud (other insurance organisations or intermediaries; legal authorities, mediators, arbitrators, representatives of the law, judicial officers, third-party organisations authorised by a legal provision and, where applicable, victims of fraud or their representatives).

In the event of a fraud alert, data are kept for a maximum of six (6) months to qualify the alert, then deleted unless the alert proves relevant. In the event of a relevant alert, data are kept for up to five (5) years from the closure of the fraud dossier, or until the end of legal proceedings and the limitation periods applicable.

With people registered on a list of suspected fraudsters, their data is deleted after 5 years from the date they were added to the list.

- In its capacity as Insurer, it is entitled to process data concerning offences, convictions and security measures, either when the policy is taken out, or during its performance, or as part of litigation management.
- Personal data may also be processed by the Insurer for research and development purposes in order to improve the quality or relevance of its future insurance and/or assistance products and service offers.
- Personal data concerning the Insured may be accessible to some of the Insurer's employees or service providers established in countries outside the European Union.
- By providing proof of identity, the Insured has the right to access, rectify, delete and object to the data processed. They also have the right to request that the use of their data be restricted if it is no longer required, or that the data they have supplied be recovered in a structured format if these data are required for the contract or if they have consented to their use.

They have the right to set directives concerning what happens to their personal data after their death. These directives, whether general or specific, concern the storage, deletion and communication of their data after their death.

These rights may be exercised by contacting NEAT's Data Protection Officer by e-mail at the following address dpo@neat.eu or by post to NEAT - DPO - 117 Quai de Bacalan, 33300 BORDEAUX.

If after making a request to the Data Protection Officer they receive no response, they may refer the matter to the CNIL (French data protection authority)

SUBROGATION

The Insurer is subrogated, up to the limit of the indemnities paid and the services provided by it, to the rights and actions of the Insured, against any person responsible for the events giving rise to its intervention. When the benefits provided under the agreement are covered in whole or in part by another company or institution, the Insurer is subrogated to the Insured's rights and actions against this company or institution.

LIMITATION PERIOD

In application of article L 114-1 of the French Insurance Code, any action deriving from this policy is time-barred after two years from the event giving rise to it. This period is extended to ten years for death benefits, with beneficiaries' claims being time-barred no later than thirty years from the date of the event.

However, this period does not run:

- ◆ In the event of concealment, omission or a false or inaccurate statement concerning the risk, from the date the Insurer becomes aware of it;
- ◆ In the event of a loss, only from the date on which the interested parties became aware of it, if they can prove that they were unaware of it until then.

If the Insured's action against the Insurer is based on the recourse of a third party, this limitation period runs only from the day on which the third party took legal action against the Insured or was compensated by the latter.

Pursuant to article L 114-2 of the French Insurance Code, this limitation period may be interrupted by one of the following ordinary causes of interruption:

- the debtor's acknowledgement of the time-barred party's right (article 2240 of the Civil Code);
- legal action, even in emergency proceedings, until the termination of the proceedings. The same applies if the claim is brought before a court without jurisdiction, or if the procedure under which the case was referred is annulled due to a procedural error (articles 2241 and 2242 of the Civil Code). The interruption is null and void if the applicant withdraws their claim or allows the proceedings to lapse, or if their claim is definitively rejected (Article 2243 of the Civil Code);
- a precautionary measure taken in application of the Code of Civil Enforcement Procedures or a compulsory execution measure (article 2244 of the Civil Code).

Please note that:

A summons issued to one of the joint and several debtors through legal proceedings or a compulsory execution measure, or the debtor's acknowledgement of the time-barred party's right, interrupts the limitation period against all the others, even against their heirs. However, a summons issued to one of the heirs of a joint and several debtor, or the acknowledgement of that heir, does not interrupt the limitation period with regard to the other co-heirs, even in the case of a mortgage claim, if the obligation is divisible. This summons or acknowledgement interrupts the limitation period with regard to the other co-debtors only for the share for which this heir is liable.

To interrupt the limitation period for the whole, with regard to the other co-debtors, it requires a summons to all the heirs of the deceased debtor, or the acknowledgement of all these heirs (article 2245 of the Civil Code).

The summons to the principal debtor or the latter's acknowledgement interrupts the limitation period against the guarantor (article 2246 of the French Civil Code).

The limitation period may also be interrupted by:

- The appointment of an expert following a loss;
- The dispatch of a registered letter with acknowledgement of receipt (sent by the Insurer to the Insured as regards action for payment of the premium, and by the Insured to the Insurer as regards settlement of the claim).

SETTLEMENT OF DISPUTES

Any dispute arising between the Insurer and the Insured concerning the determination and settlement of benefits must be submitted by the most diligent party, failing an amicable resolution, to the court with jurisdiction of the Insured's domicile, pursuant to the provisions of article R 114-1 of the French Insurance Code.

FALSE STATEMENTS

When they change the subject of the risk or diminish our opinion of it:

- Any concealment or intentional misrepresentation on your part will invalidate the contract. Premiums paid remain our property and we are entitled to demand payment of premiums due, pursuant to article L113.8 of the French Insurance Code.
- Any omission or misrepresentation on your part, where bad faith is not established, will entail the termination of the contract 10 days after notification is sent to you by registered letter and/or the application of reduced indemnities stipulated in article L 113.9 of the French Insurance Code.
